KNICKERBACKER PARK

2026 BANNED CANDY LIST

NOPE!

Candy Corn
Tastes like a crayon had a baby with regret.

Black licorice (gross)
Still gross in 2026. No exceptions.

Whatever these are.
No one knows what flavor. No one wants to find out.

Wax bottles.
Drink the juice, chew the wax, regret your life choices.

Circus peanuts.
They've been around since 1900 for a reason.

Ok, grandma.
We love you, but this stays in your candy dish.

Smarties.
Chalk. In candy form. Pass.

Necco Wafers.
A historical artifact, not a treat.

Candy cigarettes.
Encouraging bad habits since forever.

Candy buttons.
They always fall off the paper. Always.

Loose bubble gum.
We're not walking around with mystery gum in 2026.

Generic lollipops (no wrappers).
Looks like it rolled around in someone's pocket.

Old fashioned taffy.
Sticky, stale, and stuck in the past.

Peanut butter kisses.
Sounds good. Tastes like disappointment.

Jawbreakers.
Great for dentists. Terrible for kids.

Raisins (and other healthy foods).
This is Halloween, not a snack intervention.

KEEP THE GOOD STUFF COMING!

CANDY THAT KIDS ACTUALLY WANT IS ALWAYS A TREAT!
